Closing Out For Two Weeks Only.

On Monday morning the 10th inst. I will have marked down and ready for sale, the balance of my stock of dry goods and notions, to be closed out by the first of December; on that day I have made arrangements to go back to the dry goods store of Archie Reid. Customers will not be urged to buy, only to examine my stock and be convinced that they can buy cheaper than elsewhere.

ROBERT GEDDES.

They Will Go.

Early in October we received from a Boston house 50 men's suits, nice heavy all wool goods for winter wear, 25 saques and 250 frock suits, size 36 to 42 in regular sizes, and 44 to 50 in the extra sizes. They were bought for an \$18 to \$20 suit, \$18 for regular and \$20 for extra size. On examination we found that they were slightly imperfect, while it did not affect the real value and would not be noticed by any one, at the same time they were not just as ordered. We laid them aside and reported the fact to the makers, since which time we have been negotiating regarding them. We made up our minds if we could buy them so as to be able to offer them at about two-thirds their value, would do so. We have to-day been notified by letter that our terms have been accepted and we will sell the entire lot commencing Friday, Nov. 13, at \$12 per suit, including the extra sizes. You had better look at them.

—Emmet D. McGowan, of the Janesville Guards, has been commissioned by Governor Rank as "Inspector of Rifle Practice" for the first regiment, with the rank of captain.

—Rev. A. W. Bill, pastor of the First Presbyterian church of Beloit, will occupy the pulpit of the Presbyterian church of this city to-morrow, exchanging with the pastor, Rev. W. F. Brown.

—Mr. and Mrs. Harry Morrill gave a party to about forty of their friends at their pleasant home last evening. The evening passed very delightfully, and all present enjoyed themselves greatly.

—The social of the Presbyterian people at the residence of Mrs. John Richardson, North River street last evening, was well attended. The German supper was a success, and a most pleasant time was enjoyed.

—Prominent among the east side business houses is the well known jeweler, Fred H. Fellows, whose store is located on Milwaukee street, opposite the Rock County bank. Mr. Fellows has established a reputation, and enjoys a liberal trade. His stock of holiday goods is complete in every department. Call and examine before buying. See ad in another column.

—Mr. Herman Buchholz has as good a reputation for fine carriage work as any manufacturer in the west. His vehicles go to all parts of the country, and receive unbounded praise wherever used. To-day he shipped a very fine carriage to Dakota, and if any maker can give satisfaction to the wide awake people in that territory Mr. Buchholz is just the man to do it.

—Messrs. M. Hansen & Co. the old and reliable furniture manufacturers of Janesville, have decided to offer their immense stock at retail for the next thirty days. They have a complete line of goods of their own make, and as will be seen in another column, these goods will be retailed at wholesale prices. Now is the time to buy furniture cheap.

—The case of the state of Wisconsin against William Terry, of Janesville, for assault and battery, has been on trial in the municipal court most of the day. The complainant Johanna Higgins resides in La Prairie where the trouble took place. The complaint alleges that Terry in attempting to get a trunk and some dishes belonging to his wife, from Miss Higgins's home used unnecessary violence on said Miss Higgins. He denied the truth of these complaints and says that instead of that she struck him. The case is still in progress as we go to press.

—The public trust of the Wisconsin water works took place yesterday afternoon according to programme. The works were put in by the Holly manufacturing company. Eleven miles of mains and ninety-one fire hydrants, the pumping capacity being 6,000,000 gallons per 24 hours. At the public trust yesterday ten streams were thrown to an average height of 80 feet and fifteen streams to an average height of 88 feet. A single stream, with a load of 1,200 feet of hose was thrown 70 feet high and 105 feet horizontally. A strong wind prevailed during the afternoon, preventing more favorable results. The cost of the plant is not stated.

—The remains of Mrs. Adelaide McNeil, wife of R. B. McNeil, of Carroll, Iowa, will arrive in this city on the Chicago train at 9:40 o'clock this evening, and the funeral will take place at the residence of Mrs. O. B. Willey, No. 20 Court street, at 3 o'clock Sunday afternoon. The bereaved husband is a brother of Mrs. A. J. Baker, of this city, and at one time was employed as an engineer on the Northwestern road, running between this city and Chicago. Mrs. McNeil had been suffering for some time with that terrible disease, consumption, until last Tuesday, when the death angel claimed her as a victim.

—The case of city vs. Bleasdale, which came up for trial in the municipal court last Tuesday, was at first time continued until last Thursday, as the city attorney was engaged in trying a case in the circuit court. The next day the attorneys agreed to continue the case until after the meeting of the council next Monday. The city papers reported that the case was continued until last Friday (yesterday) and misled the attorneys so that when they appeared yesterday in court they learned that the case had "gone down" the day before because there was no appearance on either side. The question of bringing another action will likely be settled in the council next Monday. Notice was served on Mr. Bleasdale last Monday by the mayor not to put up any building contrary to the ordinance.

—Information in the internal-revenue bureau shows that the tobacco producing area in Maryland, Virginia, and North Carolina is steadily diminishing. Kentucky still keeps in the front, and Pennsylvania and Wisconsin are occupying the position as tobacco states formerly held by Virginia and Maryland. In the time of Washington the greater part of the cultivation of tobacco, but there is scarcely any of the weed now raised in all the region round about. Southern Maryland used to be literally almost one field

of tobacco, but it is very far otherwise now. The tobacco product of the whole country is, however, on the increase, and despite the reduction of the tobacco tax the internal revenue receipts on this account show no sensible decrease.

—The prospects for potato bugs the coming year, if not promising to the farmers, are very encouraging to the manufacturers of paris green. Last year the bugs disclosed new characteristics. Instead of appearing as formerly, in the early part of the season, when the tubers were young and tender and easily destroyed, they did not show themselves until too late to do any serious damage, and after having developed to a healthy maturity they withdrew to the seclusion of winter quarters in the ground, where they will hibernate until spring, when, rapacious and multitudinous, they are expected to reappear and commence their work of destruction. If expectations are realized the demands for paris green will probably be large in this section of the country, and manufacturers in anticipation of this result are preparing to meet it.—*Paint Oil and Drug Reporter.*

—The condition of River street near the engine house could hardly be worse than it is. Some one has dumped clay on it and the rains soaking in have made the road about like putty. It is covered with that stuff clinging mud which puts an effective damper on fast driving over that street at least. Yesterday Mr. Wilbur Carle met with a painful accident on account of the condition of this street. He was riding from his depot to his store on a load of flour when the wheels became blocked and the horses in working out of the mire snapped all four tugs. Mr. Carle was standing on the rear end of the load and the sudden jerk threw him onto the ground. One ankle was bent under him as he fell and the cords were so strained that he was confined to his bed during the rest of the day. It will be some time before he can walk around and meanwhile he will have plenty of time to think up a name for that kind of pavement.

—Mrs. I. Harrington, of Delmar, Iowa, is a guest of Mrs. M. B. McNeil, of the first ward.

—The Janesville club gave a dance at Apollo hall last evening, which was well attended, and was a great success.

—Conductor Richard Rowland and wife, of Tracy, Minnesota, who have been visiting relatives and friends in this vicinity for several days, returned to their home yesterday afternoon.

—Mr. T. H. Calley, of Princeton, Minn., visited yesterday with his old employer, Mr. J. A. Denniston. Mr. Calley has been absent from this city since 1871, and since then has established himself in the hardware business at Princeton.

—Omaha Doc: Mr. E. G. Fifield, of Janesville, Wis., was looking over Council Bluffs and Omaha yesterday, stopping over here for only a day on his way to Alton, Kansas, where he has sons living, and where he has property interests.

—Mrs. L. V. Redington, of Troy, Pennsylvania, is the guest of the family of her brother-in-law Mr. L. F. Holloway, North First street, second ward. Mrs. Redington formerly resided in this city, and will be remembered as Miss Frank Spaulding.

—Very Remarkable Recovery.

Mr. Geo. V. Willing, of Manchester, Mich., writes: "My wife has been almost helpless for five years, so helpless that she could not turn over in bed alone. She used two bottles of Electric Bitters, and is so much improved, that she is able now to do her own work."

Electric Bitters will do all that is claimed for them. Hundreds of testimonials attest their great curative only fifty cents a bottle at F. Shorr & Co.

Circuit Court.

The trial of the Ashland Henderson vs. the Beloit Water Power company, case was postponed last evening until Monday and the jury excused until 9 a. m. on that day. It will require several days yet to finish the trial. Professor Salisbury, of Beloit, who is a government geologist, gave some very interesting testimony yesterday, as to the action of water in soils.

Judge Bennett is occupied to-day in listening to the arguments in the case of O. L. Rosenbaum, of Milwaukee vs. John Atkins and others. The matter in dispute is a question of priority of liens upon some real estate property at Palmyra, belonging to Atkins. The testimony was taken at Jefferson during the last term of court there, but there was no time for the arguments and to-day was therefore set for their hearing in this city. Geo. W. Bird Esq., of Jefferson appears for the plaintiff, and Hon. G. W. Hazelton, of Milwaukee, for the defendants.

TOBACCO LAND FERTILIZERS.

Interesting Letter from Prof. Armby to Secretary A. M. Valentine of the Northwestern Tobacco Association.

The following letter is in answer to one from Mr. Valentine, written with a view to obtaining information as to the possibilities of obtaining a fertilizer for use on tobacco land which would take the place of horse manure. It will be seen that the two largest ingredients of the last, are easily applied in the shape of land plaster, a slacked lime, and sulphate of potash. Mr. Valentine is still corresponding with Prof. Armby on the subject and will give the result to our readers.

MADISON, Nov. 11, 1895.

A. M. Valentine, Esq., Secretary Northwestern Tobacco Association, Janesville, Wis.

DEAR SIR: Yours of the 6th inst. has been handed to this station for reply. It would hardly be necessary for your purpose to have an analysis of tobacco leaf made, as there are already numerous such analyses on record showing sufficient to lay the composition of the leaf. I copy below Wolff's average of German analysis and also the average of six analyses of leaf tobacco recently made at the Connecticut Agricultural experiment station, (annual report, 1894). Only the ash ingredients are given, as these are the ones which must be supplied through the soil.
